

CHAPTER 1

Video provides a powerful way to help I prove Ir point. When I click Online

Video, I can paste in the embed code for the video I want to add. I can also type a keyword to search online for the video that best fits Ir document. To make Ir document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. For example, I can add a matching cover page, header, and sidebar. Click Insert and then choose the elements I want from the different galleries. Themes and styles also help keep Ir document coordinated. When I click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match Ir new theme. When I apply styles, Ir headings change to match the new theme. Save time in Word with new buttons that show up where I need them. To change the way a picture fits in Ir document, click it and a button for layout options appears next to it. When I work on a table, click where I want to add a row or a column, and then click the plus sign. Reading is easier, too, in the new Reading view. I can collapse parts of the document and focus on the text I want. If I need to stop reading before I reach the end, Word remembers where I left off - even on another device. Video provides a powerful way to help I prove Ir point. When I click Online Video, I can paste in the embed code for the video I want to add.
